

AIRWAY HEALTH SOLUTIONS CERTIFIED

MYOMOUTH PIECE

myofunctional guidance appliance that promotes proper growth and development of the facial bones and musculature to improve the quality of sleep and allow the teeth to erupt in their proper position.

MyoMouthPiece.com

DOES YOUR CHILD:

- Sleep with their mouth open or snore?
- Have trouble sleeping through the night?
- Wet the bed?
- Struggle to focus or not perform well in school?
- Have dark circles consistently under eyes?
- Have crowded baby or permanent teeth?
- Grind their teeth?
- Have a deep bite?
- Hyperactive or considered ADD/ADHD?
- Chronically sick with ear or throat infections?
- Difficulty feeding as an infant (colic, tongue/lip ties)

**THIS COULD ALL BE RELATED TO
YOUR CHILD NOT GROWING AND
DEVELOPING THEIR FACIAL
BONES AND MUSCLES PROPERLY**

**AS EASY AS WEARING YOUR
MYOMOUTH PIECE TO SLEEP AT
NIGHT AND 1 HOUR DURING THE
DAY!**

BENEFITS

- Early interventional orthodontics starting as young as age 3 following throughout the teenage years
- No unnecessary removal of teeth for braces
- Avoid 2-4 years of traditional bracket and wire braces
- Improve the quality of sleep
- Avoid wisdom tooth removal
- Produce healthy kids that develop into healthy adults with proper facial profiles, symmetry, and all of their teeth
